Dear Friend!

Be loved, peace be unto you in the name of Allah the most merciful and magnificent. This message is not intended to cause any embarrassment and. considering the fact that you do not know me in person, my name is hajia Mariam .Sani Abacha wife and widow of the late Nigerian head of state who died in 1998.

I got your contact information through my personal Research. And I am writing you with the hope that you will by your kindness, help my family and I clear and secure some of my families fortunes. After the sudden death of my husband, successive government especially the present government of chief olusegun obasanjo, have practically made life very difficult for my family and if you are familiar with my countries, political history especially during my late fathers stay in power, you will recall that the present civilian president was one of the few people the federal military council under my late father imprisoned for attempting to overthrow the then military government. Today , my family and I are being punished for the collective decisions of the then military council headed by my late father. There is a deliberate attempt by some people at very high quarters to keep for them self all we have lived and worked for on the grounds that my late father looted the countries oil reserve. To a very large extent, they have in one way or the other recovered various sums of money deposited by my family members in different Banks and security firms abroad. Some of these banks and security firms willingly gave-/divulge their banking secrets and disclosed to the present civilian administration of Chief Olusegun Obasanjo, about my family's cash lodgments and monetary transactions with them. Please, view the web pages below for a clearer picture of what I am talking about:
